Education

Kolhapur Institute Of Technology

Kolhapur , Maharashtra

Computer Science and Engineering

- **Cumulative GPA** : 8.71/10 2022 -2026
- **Relevant Course Work** : Computer Network , Operating System , Data Structure And Algorithm , Database Engineering , Object Oriented programming

Ichalkaranji Highschool and junior college Ichalkaranji

Higher Secondary School Certificate

2021 -22

- **Percentage** : 86.50 %

M.G Shaha Vidyamandir Bahubali

Secondary School Certificate

2019 -20

- **Percentage** : 96.40 %

Technical Skills

- **Programming language** : C/C++, Core Java , SQL
- **Data Structures And Algorithm** : Java
- **Web development technologies** : Html, CSS, Javascript , Bootstrap , React

Projects

- **Face Recognition Attendance System**
 - **Technologies** : OpenCV , MongoDB , Flask
 - Built a Face Recognition Attendance System integrating Flask, MongoDB, and OpenCV to automate student attendance. Designed a responsive admin dashboard for managing profiles, viewing attendance graphs, and editing records. Implemented real-time camera-based recognition for accurate and efficient tracking of student presence.
- **Event Management System**
 - It provides a user interface for managing and organizing events, likely including admin and community views.
 - The structure includes HTML, CSS, and JavaScript files, suggesting it's a front-end heavy project.
 - Features include chat bots, carousels, and support for app store integration.
 - The design supports roles like admin and community users, indicating a role-based access system.

Coding Profile

- Leetcode
- HackerRank
