Certifications and Achievements

Database Programming With SQL - Oracle Academy

Oracle Certified Associate Java Programming - Udemy

HackerRank SQL, Python, Problem Solving

- 4-star Rating in Problem Solving
- 4-Star Rating in PL/SQL
- 2-Star Rating in Python

Leetcode Problem Solving

- 100+ DSA Problems Solved

Projects

Web Development

- Website for coffeeshop using HTML5,CSS,JavaScript And Kids Learning website using ReactJs
- Tools Used: JavaScript, HTML, CSS, ReactJS

Pharmacy Inventory System (PL/SQL)

- Developed a stock management system using PL/SQL, with triggers, procedures, and functions for expiry alerts and medicine substitution. Frontend built in React.js, backend in Flask (Python), and data communication via Axios.

Live News App

- Created a real-time news application using React, Redux, and Axios, with dynamic routing, live search, and category filters for enhanced UX. Integrated data from public news APIs.

Cypherflo – Text Cryptography App

- Developed a secure messaging app using Python, AES, and SHA-256, implementing core cryptographic algorithms for end-to-end encryption and message hashing.

Education

SPPU BE in Computer Science

Nov 2022 – Jun 2026

- Agg. GPA: 9.0/10.0
